<b>Location</b>	
<b>Item Code</b>	

**Thank you for purchasing the Colordreamer DMX Flex Strip!**

Our manual will describe the installation and mounting of the product as well as a description of how to use it.

Please read and understand this manual in its entirety before using the product.

## SAFETY RECOMMENDATIONS AND WARNINGS

Wear anti-static gloves to handle this product.

The LED source and other components may not be mechanically stressed.

Take care to avoid damage to the conducting paths on the PCB during assembly.

Do not connect or disconnect the strip while the power is connected.

Do not connect the product to power supply when it is in the package.

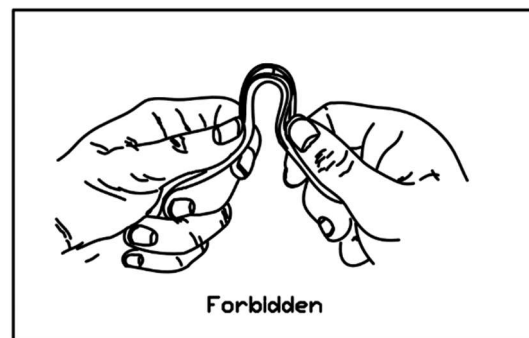

Ensure installation complies with local electrical rules and regulations.

Do not modify the product.

Do not use chemicals or abrasives to clean the luminaires as this many voids the warranty.

Input Voltage range 21-24VDC

Ensure mains input power is surge protected

## Product Overview

The Colordreamer DMX Flex Strip are flexible strips which can be controlled directly using DMX512. The strip provides flexibility to fit on any curved surface.
